Mark Richardson

A happy testimonial from a satisfied customer

As a professional photographer looking to provide the highest quality service to my clients I have reasonably complex needs from my insurers. In short I need sufficient cover to deal with last minute unforeseen circumstances and also replacement of kit swiftly and with minimum disruption and fuss.

From discussing my needs with Mark he was able to provide me with a quote that was bespoke, covered my needs and had a similar initial premium yet smaller excess.

Most importantly I have the assurance that should I have the unfortunate need to use my insurance, Mark and his team will deal with everything on my behalf which in my experience with my last insurer is worth any small increase in premium.

I do and will wholeheartedly recommend Mark Richardson to anyone looking for insurance, his manner is similar to mine, friendly, relaxed, jovial yet knows his industry well.

He also delights in ringing me the day before our early morning business networking meetings to remind me that I will have to get up early tomorrow, an additional extra service that money just cannot buy.
